# GROTE LIGHTED BATHROOM CABINETS

## TUBULAR LIGHTED BATHROOM CABINETS

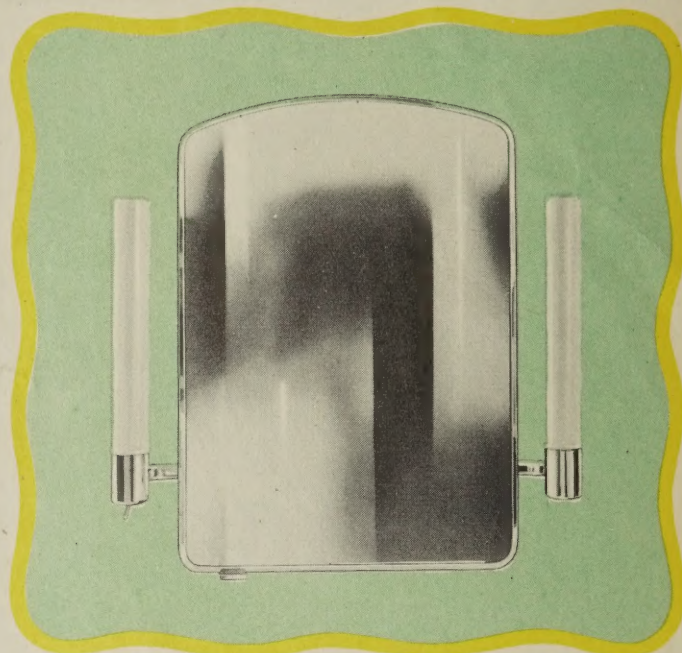

Our modern method of bathroom cabinet lighting is very effective. Sufficient illumination is provided for the entire bathroom. This effects a substantial saving in installation costs since no other outlets are necessary in the average size bathroom.

Constant testing and research by Grote engineers in conjunction with lighting specialists enables us to supply the public with the most modern and beautiful lighting fixtures as they become available.

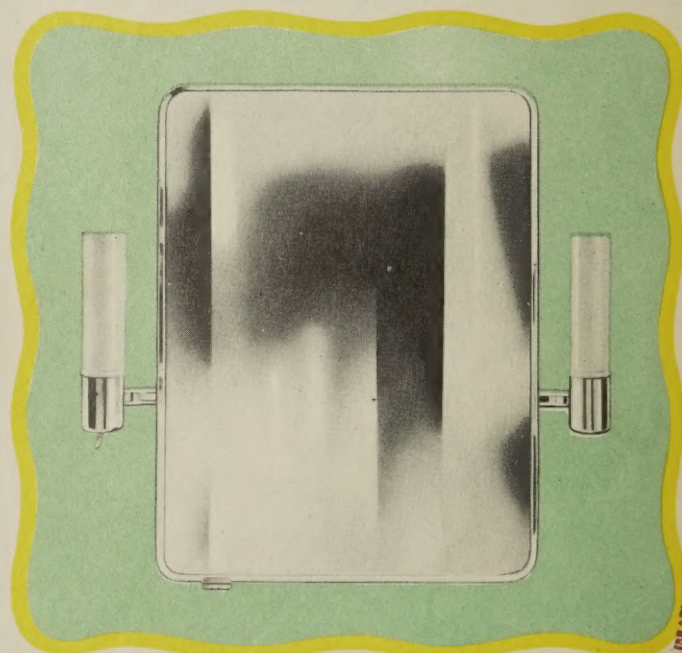

All Grote lighted cabinets are wired at the factory and are electrically equipped to conform to the Underwriters' Laboratories standards.

The control switch is located at the bottom left-hand bracket. There is also a convenience outlet in the base of the right-hand bracket for plugging in electrical appliances such as electric razors, vibrators, etc.

# GROTE BATHROOM CABINETS ARE QUALITY MADE THROUGHOUT

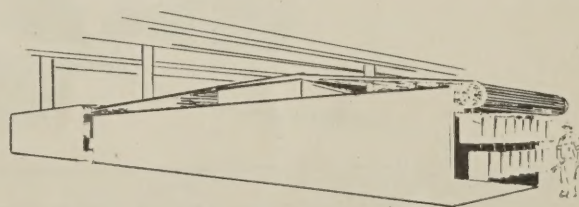

● Modern brake used for forming.

● This huge hydraulic press is used to produce Grote seamless, one-piece cabinet bodies.

● Before the finish is applied to the metal, the fabricated parts are processed in this washing and rust-proofing equipment.

● After the finish is applied to the metal bodies, they are conveyed through this especially designed, high temperature oven.

*Produced by*  
**MASTER CRAFTSMEN**

Grote stakes its 46-year-old reputation on the outstanding quality of the bathroom cabinets illustrated and described in this catalogue. Styled by forward-looking designers, fabricated by master craftsmen, these cabinets are unquestionably superior, price for price, to any others on the market.

For nearly half a century, ever since 1901, The Grote Manufacturing Company has been engaged in the production of high quality metal specialties.

With this background, plus the services of men who have had long experience in designing and producing fine bathroom cabinets, Grote now enters the field with *quality lines* that set entirely new standards in beauty, construction, and convenience features. Without doubt, the values offered will immediately establish Grote Cabinets as leaders in national competition.

### series

TMC 2264—Unlighted

Model TMC-2264 is a spectacular beauty designed for the modern bathroom—with or without lavatory cabinets or vanities. New, distinctive light gray, hammered finish blends with all bathroom color combinations. On each side of the center mirror are beautifully designed, recessed cabinets with 16" x 24" beveled plate glass mirrors. With the center mirror, also 16" x 24" in standard models, there is a broad expanse of 48" of polished plate glass mirror.

Mirrors are held with mirror clips. Cabinet doors swing right and left from the center mirror over deep drawn recessed cabinets, each with three adjustable, bulb-edged glass shelves that afford generous storage space. Center mirror is affixed to the cabinet flanges.

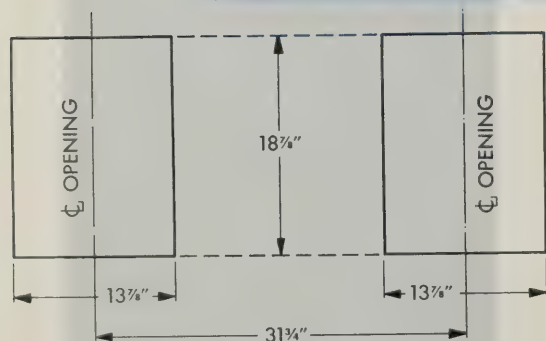

Sliding Door Cabinet  
S-600—Unlighted  
LS-5600—Fluorescent Side Lights

The new Grote Sliding Door Cabinet offers the latest in cabinet refinement; affords lasting beauty and utility—twice the storage space and twice the mirrored surface found in most ordinary cabinets.

Two 15" x 20" plate glass mirrors slide open at the touch of a finger. Inside are two separate, full sized bathroom cabinets finished in gleaming white enamel.

### CONSTRUCTION DETAILS

- Entire cabinet beautifully framed with polished stainless steel
- Mirror doors are of top quality plate glass with stainless steel frames and protected by metal backing
- Mirror doors slide in corrosion resistant aluminum track
- 6 adjustable bulb edged glass shelves can be used 3 on each side or in other combinations
- 2 razor blade slots
- Mirror doors equipped with polished stainless steel door pulls

TMC-2264 also available with cabinet doors hinged at center mirror, swinging inward. Specify Cabinet No. TMC-2264-V.

### INSTALLATION

Both of these models are easily installed. Model TMC-2264 requires two rough openings as shown in the accompanying diagram . . . Sliding Door Models require a single opening—see dimensions below.

### SPECIFICATIONS

### All GROTE Recessed Cabinets Have These Added Features

Baked enamel finish on heavy steel body and door • SEALTEX treated before enameling—rust resisting • Top quality plate or window glass mirror • Stainless steel mirror frame or non slip mirror clip • Continuous piano type door hinge • Bullet type door catch • Adjustable glass shelves • Rubber door bumpers • All models except SF-426 have seamless, deep drawn steel bodies with easy to clean rounded corners.

## lighted cabinets

Grote fluorescent lighted cabinets are complete with The NEW DELUXE WARM-WHITE fluorescent tubes for natural reflection and even illumination of the entire mirror. They provide all of the necessary light for the entire bathroom.

**Fluorescent Fixtures:** Furnished complete with starters and T-12, 14 watt "Warm-White" tubes. Control switch at bottom of left fixture; convenience outlet at bottom of right.

**Incandescent Fixtures:** Furnished with 13" tubular shades **but no bulbs**. Use of T-8, 40 watt clear bulbs is recommended. Control switch at bottom of left fixture; convenience outlet at bottom of right.

venience outlet at bottom of right.

**Wiring:** All of Grote's lighted cabinets are completely wired at the factory and comply with Underwriters Laboratories' Standards. They are shipped ready for easy economical installation.

**Installation:** Only one connection is required—through the knockout box at the top of the cabinet. House wiring should be brought into the top center of the wall opening provided for the cabinet; except for the Sliding Door Model. Knockout box for this model is located 8 inches left of center of rough opening.

## Grote framed wall hung mirrors

32-1 Arched 32-3  
16"x24" 14"x20"

32-4 Rectangular 32-6  
16"x22" 18"x26"

These metal backed mirrors, firmly held in place by a polished stainless steel frame, are ideal for hanging on any type of wall surface. Especially useful in public washrooms, hospitals, schools, clubs, hotels or in any other location where a bathroom cabinet is not required.

### ALL GROTE MIRRORS HAVE THESE OUTSTANDING FEATURES:

- Top quality plate glass mirror • SEALTEX treated steel backing for rust resistance and bond of baked enamel finish • rounded corners—no mitered joints in the frame • concealed keyhole, slot type hanger for easy mounting • theft proof hanging device if specified •

## Grote *Fari-Chrome* bathroom accessories

### SURFACE MOUNTED ACCESSORIES

The new Grote line of Bathroom Accessories is designed to keep pace with the simplicity, strength and beauty of contemporary architecture. Each fixture is made of a zamack metal die casting, hand polished and finished with successive coats of copper, nickel and chromium plating for lifetime wear and lasting beauty.

Grote Square — BELLEVUE KENTUCKY

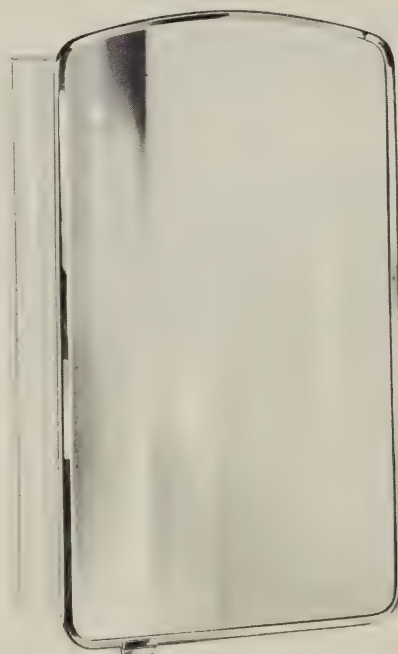

# Grote

Recessed Model No. LSD 5264, Fluorescent lighted, with Grote Stor-In-Door\*, plate glass mirror in stainless steel frame. Three adjustable bulb-edge glass shelves. Cabinet is fully wired, ready for installation. Also available with incandescent lights.

All Grote bathroom cabinets for recessed installation are made with one-piece, heavy steel, **seamless** bodies and deep flanges. The rounded corners are as easy to clean as a china dish.

Shelves recessed inside the door allow more useable storage space—every item in the cabinet plainly visible—every article conveniently in finger-tip reach. These recessed models contain all the distinctive Grote quality features . . . the deep drawn seamless steel bodies with rounded corners, the sturdy steel construction with gleaming white baked enamel finish, adjustable glass shelves—plus the bonus feature of Stor-In-Door\* that makes them the finest cabinets and the fastest sellers on the market.

Model No. SD 264, recessed type, features Grote Stor-In-Door\* with stainless steel frame on plate glass mirror. Piano-type hinge; adjustable bulb-edge shelves. Also furnished with rectangular mirror—SD 440.

### SURFACE MOUNTED ACCESSORIES

Designed to keep pace with the simplicity, strength and beauty of contemporary architecture, the new GROTE line of Bathroom Accessories are the style, as well as the quality leaders for value minded buyers.

Each fixture is made of a Zamack Metal die casting, hand polished and finished with successive coats of copper, nickel and chromium plating for lifetime wear and lasting beauty.

All fixtures have been designed for easy cleaning and all of the removable tray type accessories (soap, tumbler and tumbler-toothbrush holders) are uniquely engineered to solve every placement problem common to bathrooms having limited space.

### WITH THESE OUTSTANDING FEATURES

The GROTE line of surface fixtures contains many exclusive features for greater versatility, but at no extra cost to you or to your customer. For example:

- The Removable Glass Shelf is held firmly in place by the patented chrome stanchion.
- Towel Bars are available in three lengths and with either  $\frac{1}{2}$ " or  $\frac{3}{4}$ " square rods.
- The Paper Holder's patented metal ball bearing roller assures free and even rolling of paper and is easily removed for refilling.

These and many other features of the complete line that adds to the convenience and safety of every bathroom are resulting in increasing demands for GROTE Surface Mounted Accessories.

### EASY TO ORDER — ALWAYS SPECIFY

- wood or masonry mounting
- the length of glass shelves
- the length and size of towel bars
- the size of grab bars
- drain holes for soap holders if desired

Chrome rollers furnished with paper holders unless wood is specified.

# Since 1901

Grote stakes its 48-year-old reputation on the outstanding quality of the bathroom cabinets illustrated and described in this catalogue. Styled by forward-looking designers, fabricated by master craftsmen, these cabinets are unquestionably superior, price for price, to any others on the market.

For nearly half a century, ever since 1901, The Grote Manufacturing Company has been engaged in the production of high quality metal specialties.

With this background, plus the services of men who have had long experience in designing and producing fine bathroom cabinets, that set entirely new standards in beauty, construction, and convenience features. Without doubt, the values offered immediately establish Grote Cabinets as the leaders in quality construction.

## engineering

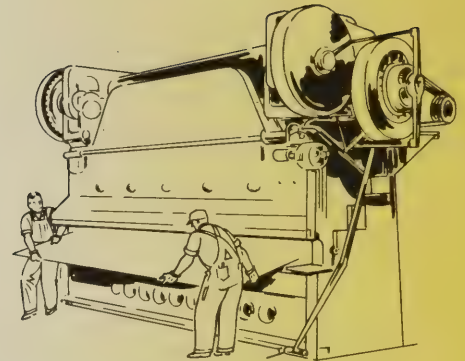

The most advanced construction methods are used to produce Grote Bathroom cabinets. Grote technicians are always on the alert to produce the newest types, using the latest methods of fabrication, improved designs, etc., to keep the Grote Cabinet line ahead of the field in top quality.

## service

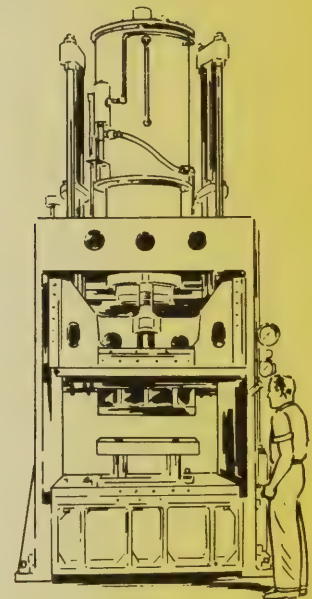

Grote employs a staff of capable technicians, who are specialists in their fields, and who are equipped to give you the brand of service for which "Grote" is noted. Special orders for cabinets not in the catalog, can be serviced by these technicians, and the Grote company is well equipped to produce these cabinets for you, quickly and economically.

## products

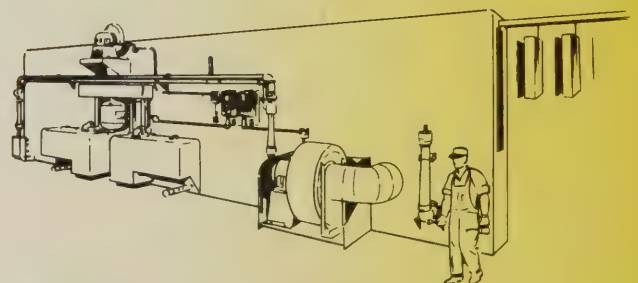

Grote also manufactures a complete line of street name signs, highway and street regulatory signs, plastic and glass reflectors and reflector buttons and automotive accessory lighting equipment.

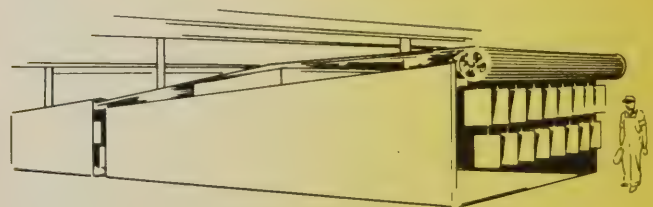

Modern brake used for forming.

This huge hydraulic press is used to produce Grote seamless, one-piece cabinet bodies.

Before the finish is applied to the metal, the fabricated parts are processed in this washing and rust-proofing equipment.

After the finish is applied to the metal bodies, they are conveyed through this especially designed, high temperature oven for baked-on enamel finish.

# Grote bathroom cabinets

## Construction features

Grote recessed cabinets are constructed with one piece deep drawn seamless heavy gauge steel bodies. Round corners allow for easy cleaning.

High lustre baked on white enamel finish on all Grote cabinets.

Chromium plated piano type hinge furnished for series 100 model cabinets. White enamel continuous type piano hinge on other models.

Bullet type door catch of sturdy construction.

Shelves are crystal clear bulb edge glass, furnished with 2 or 3 shelves per cabinet depending upon size.

Grote lighted cabinets are wired at the factory to conform to the Underwriters' Laboratories standards. Installation is very simple. Wire connection located at knockout box in top rear side of the cabinet. Grote light fixtures provide attractive appearance, sturdiness and utility. Illustration shows new one piece bright chromium plated fixture.

Light control switch is located at the bottom left-hand bracket; convenience outlet in base of right-hand bracket for electrical appliances such as electric razors, vibrators, etc.

Polished Stainless steel frames supplied unless otherwise specified. White enameled frames furnished by model specifications.

Polished high quality plate glass mirrors with solid Stainless or white enameled channeled frames. Mirror clip cabinets in the 100, 200 and 362 series, bevel edged and engraved.

Cabinets equipped with approved molded Polystyrene tooth brush holder. Smaller models have a bright nickel plated tooth brush holder.

Shelf supports recess into side of body for eye appeal and easy cleaning. Removable shelf brackets set in recessed standards with shelf adjustments 1" apart. Welded-in shelf standards with shelf adjustments 1 1/8" apart.

Chromium plated round bar door stop with cushioned compression spring on series 100 models. Round bar and flat bar door stops provided on other models.

Series 100 and 200 models are provided with a molded black Polystyrene razor blade disposal box. Smaller models have a razor blade disposal slot.

## aristocrat series "100"

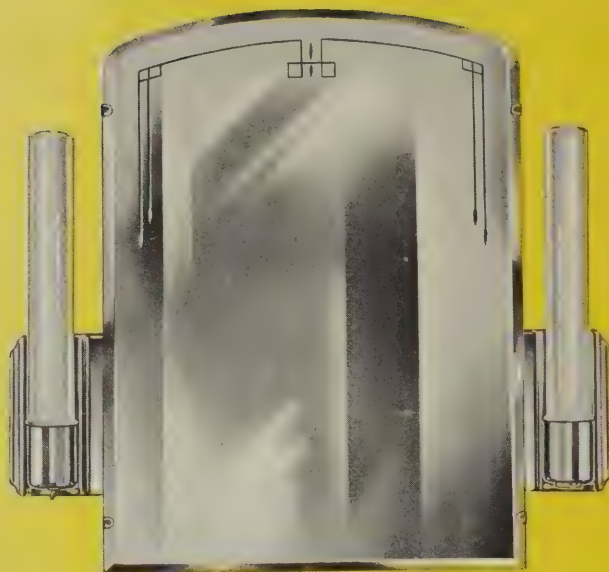

These beautiful cabinets incorporate all of the Grote quality construction in sizes popular for the most elaborate home. Lighted models in this Aristocrat series are equipped with the beautiful new one piece Grotelite light fixtures which are completely wired at the factory for easy installation and to meet Underwriter Laboratories Standards.

Seamless deep drawn bodies finished in high lustre baked-on white enamel finish.

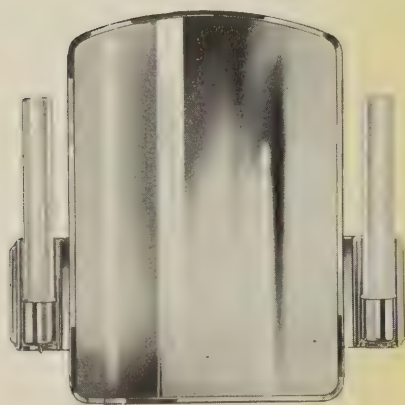

Furnished with stainless frame, mirror clips in plain or engraved plate glass.

Sufficient illumination is provided for the entire bathroom.

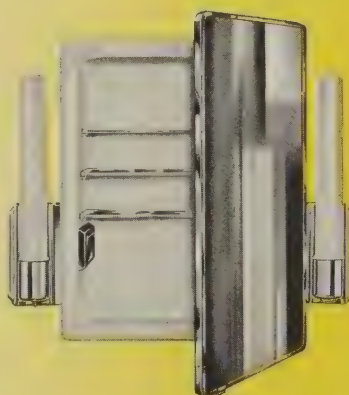

Fluorescent models will be numbered by prefix symbols "LSF-1" and "LMC-1." Example: LSF-1-188 is fluorescent lighted SF-188. Available on all series "100" February, 1949.

## quality series "300"

A low cost bathroom cabinet with construction features and all the latest refinements that are usually associated with a higher priced product. Frame is of polished stainless steel or you may select the mirror clip models with a beveled edged, engraved, plate glass mirror. Window glass mirror with etched design and mirror clips also available.

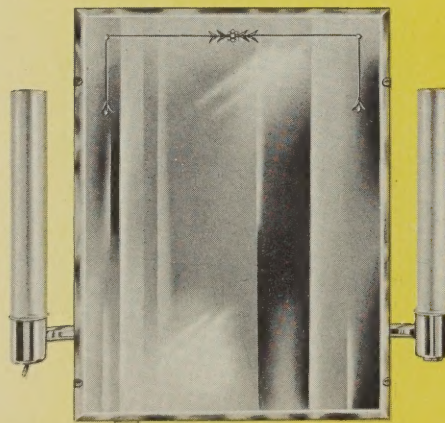

Our modern method of bathroom cabinet lighting is very effective. Sufficient illumination is provided for the entire bathroom. This effects a substantial saving in installation costs since no other outlets are necessary in the average size bathroom. The location of the fixtures will not permit reflected lighting in the mirror, thus assuring perfect diffusion of the light rays on the face with resultant better reflection.
